1. About this Report

Introduction: It is mandatory for a Club to prepare an Annual Report that reflects how it (Club) has fared during the year. Besides certain static information like the Club Charter, Club Constitution and Bye-laws etc., it also contains the financial status of the Club and its activities. The present Report has tried to bring out all these points for the year 2020-21 for the Rotary Club of Bhubaneswar Heritage (RCBH).

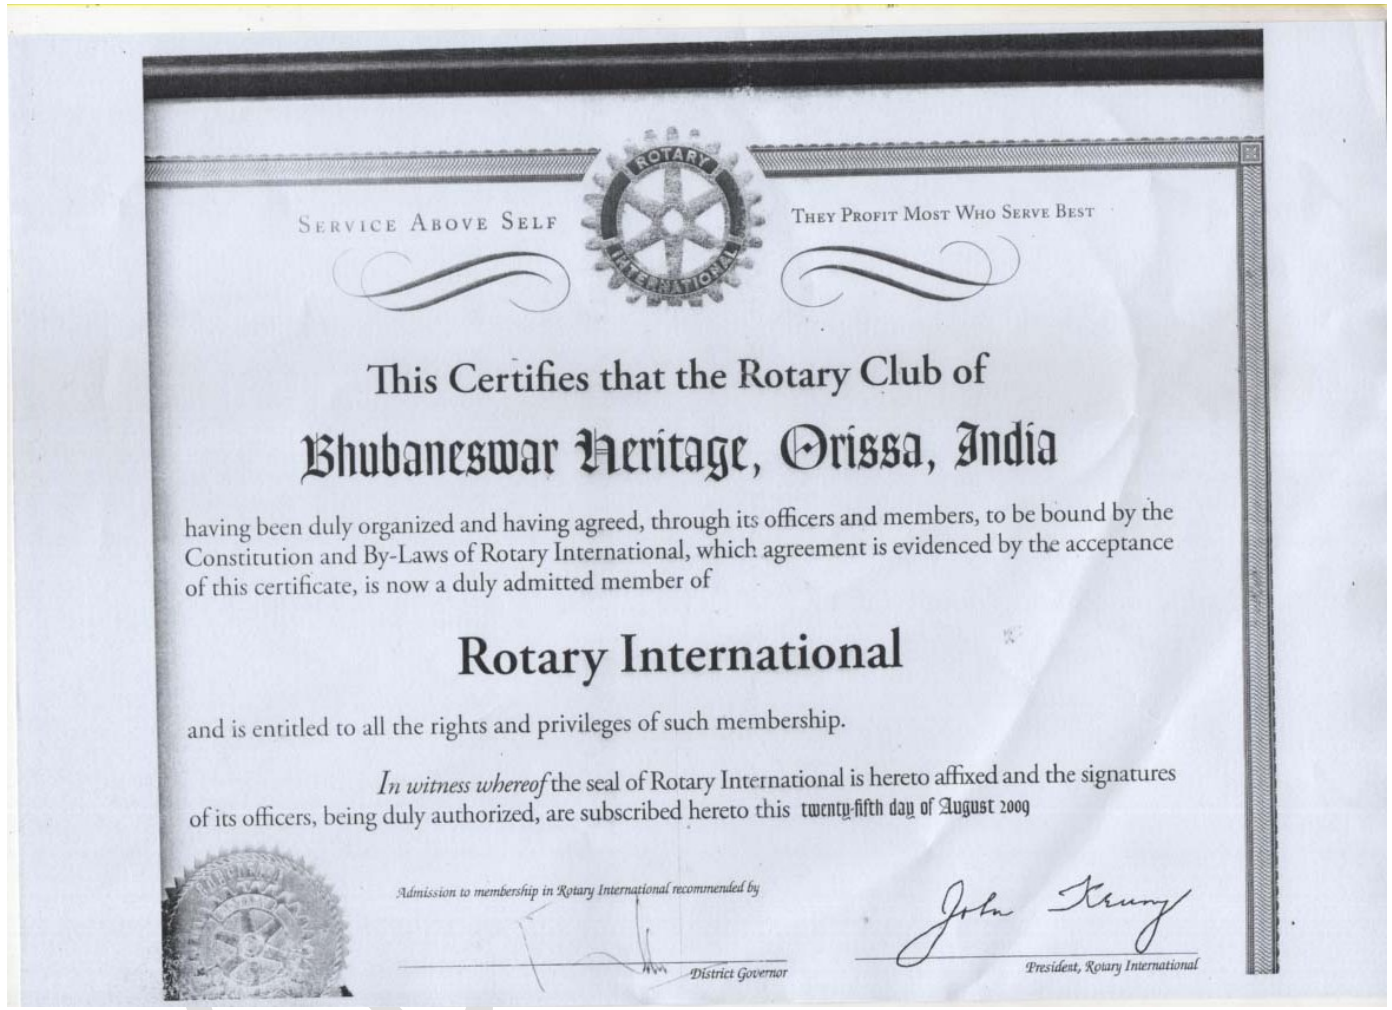

A Snapshot of Club Performance: The Club has performed very well during 2020-21. This is, in spite of the COVID Pandemic that has ravaged the country and Odisha is not an exception to this. During 2020-21, the Club added 13 new members to the 61 existing as of 1st July, 2020 but lost 3 (One passed away and two changed location and did not pay). The Club has achieved almost all targets set for the mandatory internal commitments. Besides, it has taken a number of Service and Community Activities. The Club had 43 weekly meetings (as against the target of 40) and 16 Speaker Meetings (as against the target of 12). In addition, it has achieved the targets set for Business Meetings (12) and Board Meetings (8). It has paid all dues to RI, District and Rotary News. It has been able to bring out 12 E-Bulletins and one Special Bulletin to mark the Installation Ceremony and Charter Day Celebration that were held together on 25th August, 2020. The Club also observed several International Days like, Polio Day, Hand Washing Day, Diabetes Day, AIDS Day, Toilet Day, Women's Day, Health Day and so on. From 1st November, 2020, the Club introduced an innovative program, called, "My Success, My Pride", in which members were encouraged to speak on their successful achievements in their public life. There was overwhelming response to this. The Club organized special discussion sessions on contemporary topics of national interest like, National Education Policy, 2020, National Budget for 2021-22 etc. A mandatory District Program on Environment was organized jointly with the Rotary Club of Bhubaneswar New Horizon on 12th and 13th December, 2020. The Club has also very successfully organized the official visit of our smiling DG, Rtn. Shri Saumya Ranjan Mishra on 11th June, 2021. It has released the Club Directory & launched its own Club Website.

Acknowledgement: We thank our members for their participation in Club meetings and also in various Club activities. The guidance received from the Board Members was of great help for which we express our sincere thanks. We gratefully acknowledge the encouragement received from our smiling DG, Rtn. Shri Saumya Ranjan Mishra, from time to time, including his words of appreciation during his official visit to our Club. Our Club Adviser, Rtn. Shri Ashok K. Tripathy, was always a source of inspiration to us and his timely advice on several occasions was of great help for which we express our gratitude. Our CP Rtn. Debabrata Panigrahi has always extended his positive response to our issues, from time to time, for which we are grateful to him. We received strong support from our past Presidents, Messrs Rtn. Shri Santanu K. Mishra, Rtn. Shri Vinod Kumara and IPP Dr. Sarangadhar Samal for which we owe them a lot. The Club Executive Secretary Shri Sadananda Behera's support is gratefully acknowledged so also the help from Shri Kanhu Charan Nayak, on financial matters. (both from ODM). To end, the leadership provided by President Rtn. Dr S. Minaketan, with support from Rtn. Dr. B.B Samanta, Secretary and Rtn. Shri. Blood donations are down across the country and here locally. It is our community responsibility to make sure there is a safe level of blood products on hand to save lives in our local hospitals. Rotary's focus on fighting diseases (platelets from blood donations are used for chemotherapy treatments), saving mothers and children (often mothers giving birth use large amounts of donated blood products when hemorrhaging occurs), disaster response (donations are for chemotherapy treatments), saving mothers and children (often mothers giving birth use large amounts of donated blood products when hemorrhaging occurs), disaster response (donations are monitored to make sure there is a four-day supply on hand as deemed a safe level by hospitals) and promoting peace (if you've ever been to a blood drive and seen the community spirit – donors giving selflessly of themselves)

20 Benefits of Rotary Membership

Friendship

In an increasingly complex world, Rotary provides one of the most basic human needs; the need for friendship & fellowship. It is one of two reasons Rotary began in 1905.

Business Development

The second original reason for Rotary's beginning is business development. Everyone needs to network. Rotary consists of a cross section of every business community. It's members come from all walks of life. Rotarians help each other and collectively help others.

Personal Growth & Development

Membership in Rotary continues one's growth & education in human relations & personal development.

Leadership Development

Rotary is an organization of leaders & successful people. Serving in Rotary is like a college education. Leadership: - learning how to motivate, influence, and lead leaders.

Citizenship in the Community

Membership in Rotary club makes one a better community citizen. The average Rotary club consists of the most active citizens of any community.

Continuing Education

Each week at Rotary there is a program designed to keep one informed about what is going on in the community, nation and world. Each meeting provides an opportunity to listen to different speakers and a variety of timely topics.

Fun

Rotary is fun, a lot of fun. Each meeting is fun. Social activities are fun. The service is fun.

Public Speaking Skills

Many individuals who join Rotary were afraid to speak in public. Rotary develops confidence and skills in public communications and the opportunity to practice and perfect these skills.

Citizenship in the World

Every Rotarian wears a pin that says "Rotary International". There are a few places on the globe that do not have a Rotary Club. Every Rotarian is welcome - even encouraged - to attend any of the over 34,000 clubs over 200 nations and geographic regions. This means instant friends in both one's own community and in the world community.

Assistance when traveling

Because there are Rotary clubs everywhere, many a Rotarian in need of a doctor, lawyer, hotel, dentist, advice, etc., while traveling has found assistance through Rotary.

Entertainment

Every Rotary club and district has parties and activities that provide diversions in one's business life. Rotary holds conferences, assemblies, and institutes that provide entertainment in addition to Rotary information, education and service.

The Development of Social Skills

Every week and at various events and functions Rotary develops one's personality, social skills and people skills. Rotary is for people who like people.

Family Programs

Rotary provides one of the worlds largest youth exchange programs; high school and college clubs for future Rotarians; opportunities for spouse involvement; and a host of activities designed to help family members in growth and the development of family values.

Vocational Skills

Every Rotarian is expected to take part in the growth and development of his or her own profession or vocation; to serve on committees and to teach youth about one's job or vocation. Rotary helps to make one a better doctor, lawyer, teacher, etc.

The Development of Ethics

Rotarians practice a 4 Way Test that governs one's ethical standards. Rotarians are expected to be ethical in business and personal relations.

Cultural Awareness

Around the world, practically every religion, country, culture, race, creed, political persuasion, language, color and ethnic identity is found in Rotary. It is a cross section of the world's most prominent citizens from every background. Rotarians become aware of their cultures and learn to love and work with people everywhere. They become better citizens of their countries in the process.

Prestige

Rotary members are prominent people: leaders of business, the professions, art, government, sports, military, religion and all disciplines. Rotary is the oldest and most prestigious service club in the world. It's ranks include executives, managers, professionals - people who make decisions and influence policy.

Nice People

Rotarians above all are nice people - the nicest people on the face of the earth. They are important people who follow the policy of it is nice to be important but it is important to be nice.

The absence of an "Official Creed"

Rotary has no secret handshake, no secret policy, no official creed, no secret meetings or rituals. It is an open society of men and women who simply believe in helping others.

The Opportunity to Serve

Rotary is a service club. It's business is mankind. Its product is service. Rotarians provide community service to both local and international communities. This is perhaps the best reason for becoming a Rotarian: the chance to do something else and to sense the self-fulfillment that comes in the process and return of that satisfaction to one's own life. It is richly rewarding.

FIVE REASONS TO BE IN ROTARY

HELP OTHERS

Our club does service projects throughout the year and is open to new ideas on how to meet the needs of our local and global community.

SHARE KINDNESS

Every time Rotarians get together there are smiles, hugs and laughter. It is an environment of sincere kindness with one another.

CONNECTIONS

Whether it's professional networking or making new friends, Rotary is a great place for organic connections that can last a lifetime.

PERSONAL GROWTH

Rotary provides many training and educational opportunities. Friendship exchanges that can take you around the world, and ways to expand your mind.

FOR FUN!

We spend a lot of time socializing because we genuinely enjoy each other's company. There are club nights, parties, picnics and group outings throughout the year.

Dr Samanta notified that in view of the restrictions imposed on movement of vehicles until 31st July, 2020, no field activity could be undertaken since what was reported in the last meeting. IPP Rtn. Minaketan welcomed the participants. After one-minute silence for world peace, he asked Secretary Dr. Samanta to read out the minutes of the last week's meeting.

Dr Samanta referred to the minutes of the last meeting already circulated and asked the participating members whether it could be adopted. The minutes were unanimously adopted. Dr Samanta notified that in view of the restrictions imposed on movement of vehicles until 31st July, 2020, no field activity could be undertaken since what was reported in the last meeting. This was followed by the Speaker's Meeting.

The President asked PP Rtn. Shri Santanu Mishra, to introduce the speaker, fellow Rotarian and PP Shri Vinod Kumar, who spoke on the Miyawaki Approach to Afforestation. This approach was introduced in Japan some 7 to 8 years back and now gaining popularity all over the world, including India and Odisha, he added. According to him, the Miyawaki Approach can also be considered co-terminus with Ecosystem Approach. The principle of this Approach is that native plants and traditionally utilized species have capacity to develop a good and self-sustained forest ecosystem in place of non-local trees. The advantage of this approach lies in the fact that while in Conventional plantation, one could have one tree per square meter of space, in Miyawaki Approach one can have 30 trees with 25-30 varieties of species. In spite of a higher initial investment cost, Miyawaki is advocated for various other reasons such as, no maintenance cost after 3 years, less susceptible to pests, balanced ecosystem etc., he emphasized. While leading the question and answer session Club Adviser Rtn. Shri Ashok Kumar Tripathy enquired whether this approach was being used on a larger scale in Odisha to which there was a clear 'NO' from Shri Vinod Kumar; the main reason being the initial cost. He clarified that while a conventional plantation in an area of 2000 square meters require less than Rupees one lakh, for Miyawaki Plantation, it is between Rs. 3-5 lakhs. However the latter is advocated for various other reasons such as, no maintenance cost after 3 years, less susceptible to pests, balanced ecosystem etc. The other member who also participated in the discussion was Rtn. Shri R.C.Ojha. The talk was well appreciated by the 20 and odd members attending the meeting.

Dr Minaketan impressed upon the members to help collecting membership fees and getting advertisement for the Special Bulletin to be released on Installation Ceremony and Charter Day. Dr Samanta gave the status of membership fee collection. He mentioned that due to mobility restrictions, it has not been possible to collect cheques from a few members. Rtn. Shri Rajendra Dash suggested that while collecting the fees one should give a patient hearing to the issues, if any, raised by a member and try to address the problems so raised. This was agreed to.

The meeting ended with a vote of thanks by Rtn, Dr P. Srinivas, Joint Secretary. and national anthem sung by the participating members. (Shared on 3rd August, 2020)

First Board Meeting (Virtual) on 07.08.2021:

At the outset President, Dr S. Minaketan called the meeting to order and welcomed the participants. One minute silence was observed for world peace. A total of 18 members participated.

At the request of the President, Secretary Dr B.B.Samanta read out the highlights of the already-circulated minutes of the last Joint Board Meeting held on 26th June, 2020, under the joint Chairmanship of the outgoing and incoming presidents. The minutes were unanimously adopted.

President Dr Minaketan introduced the new Board and the responsibility of the members for the current year. Starting with Dr Rambabu Dandela, a few other members enquired about the rationality of the number of Board members and also allotting the areas of responsibility to them. To this the President clarified that the interest of a member and his/her willingness were a major criterion in inducting him or her into the Board.

This was followed by presentation of a few proposals for approval of the Board such as the 8 new members introduced by the President (4) and Secretary (4), budget for 2020-21 etc. While members appreciated and approved, unanimously, the induction of high quality members, they wanted the same to continue during the year. President requested members to help in raising the membership with the slogan 'each one, get one' President Elect Rtn. Shri P.C.Dash, suggested a slight modification of the slogan, ' Each one, teach one and get one' There was also unanimity in raising the number of women members.

In absence of the Treasurer Rtn. Shri Amit Agrawala, Dr Samanta, while presenting the budget for 2020-21, reminded the members how on June 26th an indicative budget had been prepared and how based on the suggestion of the members it was toned down. According to him, while the earlier budget was around Rs 18 lakhs, the present budget is slightly over Rs. 15 lakhs. He added that in view of the fact that the opening bank balance was Rs 1, 71, 000 plus, this was the bare minimum to carry out the activities planned. IPP Dr Sarangadhar Samal appreciated the efforts put by Dr Samanta and endorsed the amount stated in the budget as the minimum. He also stated that of the opening balance. Rs72,000 was the amount he had received towards membership renewal fees credited to the bank during end June but for the current year. Of the remaining amount, that is close to Rs. One lakh, Dr Samanta mentioned that the entire amount would be kept for creation of an asset for the club, (construction of a Community Center at Bhalunka), as suggested by the IPP. Rtn. Shri Rajendra Das enquired whether there could be a specific allocation for club activities and in its absence there could be problem in implementation of the activities entrusted to the Board members. Dr Samanta mentioned that we have to manage the activities within the budget provision, as raising funds more than what is already included will be difficult. That brought up the contribution from members or getting more advertisements

with the help of members. Vice-President Rtn. Shri Manmath Pani, while endorsing this idea, committed raising Rs. 50,000 for the club through advertisement and appealed others to follow. This was greatly appreciated. However, based on the suggestion from Rtn. Shri Rajendra Das and IPP, Dr Samal, President declared that he would form a Committee to examine the possibility of allotting separate funds for specific activities entrusted to the Board members and modify the budget accordingly. Rtn. Shri Pani suggested a time frame of one week for this purpose. This was agreed to.

As regards holding of a combined Charter Day and Installation Ceremony on 25th August, 2020, President, Dr Minaketan announced the formation of a Committee under the Chairmanship of CP Rtn. - It was agreed to have a non-Rotarian as the Chief Guest. Various personalities were subject of discussion.
- One possibility, as first priority, was to have Hon'ble Governor of Odisha. CP Shri Debabrata Panigrahi volunteered to coordinate with Governor's Office. However, the President was to send the letter already drafted for this purpose, with slight change, to Shri Panigrahi, immediately.
- In case Hon'ble Governor was not available, other potential personality could be thought of. Members were requested to keep in mind such possibilities.
- With regard to the Agenda, both IPP Dr Samal and Dr Samanta had prepared a draft Agenda each. It was suggested that it will be more appropriate to confine the event to one hour or a maximum of one and half an hour.

Only four or five hard core members have remained and with majority of them no contact could be established so far. However, since we have

already paid the statutory fees for these people to the RI, we will continue to pursue until December, failing which we will have no other option except to remove their names, suggested Dr Samanta. However, we will review the budget by the end of December and based on the information could modify the budget, he added. He, however, clarified that the Chairman/Co-Chairman of the concerned areas have to try for sponsors of activities for which they are responsible and only in exceptional cases, they could look for partial help from the common fund set aside for Community Service and Project Dignity. 10th Weekly & 3rd Business Meeting held on 25th September 2020 (Virtual):

The 10th Weekly Meeting was held virtual at 7 pm. As the Speaker for 18th Meeting was not available, it was converted to a Weekly cum 3rd Business Meeting.

The President called the meeting to order. There were 14 participants. After one minute silence for world peace, he (President Dr Minaketan) asked the Secretary to read out the last meeting's minutes. As the minutes had already been circulated at least three times before, Dr Samanta, Secretary, asked the participants whether there was any further need to read out the same or he would take the minutes as adopted. The members present unanimously adopted the minutes. He (Dr Samanta) updated the members on the developments since the last meeting.

This was followed by the President presenting the receipts and payments pertaining to the relief work, meticulously prepared by Kanhu Babu of ODM Public School. According to the report, 14 members contributed a total sum of Rs. 41,500 of which the cash expenditure was Rs. 33, 247 leaving a balance of Rs. 8,253 that could be utilized for any disaster relief in future. Of the materials contributed by IPP Dr Sarangadhar Samal, while the match boxes and candles were used for the flood relief, the seed packets consisting of 10 varieties of seeds were not distributed as the field conditions were not suitable and there was no requirement of these seeds by the farmers at this stage. Dr Samanta mentioned about a suggestion coming from Club Adviser Rtn. Shri Ashok K. Tripathy to explore the possibility of distributing these packets among needy farmers of our 5 adopted tribal villages along with Morenga plants. Dr Minaketan was in agreement with this provided it was preceded by a farmers' training that could only be taken up after the prevailing conditions caused by Covid pandemic improve. Dr Samanta suggested that the contributor Dr Samal may be kept in the loop. Dr Minaketan agreed to speak to Dr Samal and he did not find any problem in doing the same. At this point Dr Samanta brought out the efforts made by the President Dr Minaketan and his team for preparing the packets for flood relief work.. He (Dr Samanta) requested the members to thank the President, Dr Minaketan and his team who took the full responsibility of procuring the flood relief materials, burnt midnight oil for packing and arranging all logistics for procurement and movements to the field. This was applauded by all participants present.

On the status of outstanding membership renewal fees, Dr Minaketan confirmed that he had paid the renewal fees for the two members sponsored by him and they were Prof. Alok Das and Dr Manas Ranjan Swain. This makes the total 46 out of the 61 members listed for this year. On Dr Samanta's suggestion whether the President's office should remind those who had not yet paid

their membership renewal fees, at regular intervals, Dr Minaketan felt that it might not be proper to do so. We should continue to adopt our earlier strategy of putting peer pressure to reduce the outstanding, Dr Minaketan added. PP Rtn. Shri Vinod Kumar suggested for on-line payment of fees rather than payment through cheque.

The 5th Edition of E-magazine was released by the President with support from the Club Editor Rtn. Shri Chinmaya Mahapatra. This was well appreciated by everybody.

Shri Jaganath Prasad Jagdev, who was to speak about his personal experience on his recent recovery, from COVID, along with his family, with the exception of aged father. Dr P. It was nice of Rtn. Jagdev to share PPT of his talk among the RCBH members, for future reference. While summing up the talk, President was hopeful that the lessons learnt by Rtn. Jagdev would be a path finder for RCBH members in COVID management. He thanked Rtn. Jagdev profusely for giving a very frank analysis of his experience with COVID.

Following what transpired from Rtn. Jagdev's experience and experience of some members it was felt that treatment at home under medical supervision was going to be the best option, in

view of the over stretched Government infrastructure. This brought out the need for developing some infrastructural facilities by RCBH. President confirmed that he was also thinking in the same lines and had already taken an apartment that was to be equipped with essential medical equipments. There was a long discussion on how to finance such a facility. It was resolved that once the costs (both fixed and variable) are estimated, an appeal would go to members to contribute. Also, there should be a user's fee for members (including their family). While taking this responsibility, President announced that besides paying for the hiring cost of a two bedroom apartment, (that could be raised to three), the ambulance, available in ODM School, could also be used for this noble cause. This was applauded by the participating members. Dr Samanta felt it would be possible to raise the funds, needed for creating the proposed facility, through the generous contributions of members. Members were in agreement with this.

21st Weekly Meeting and 5th Business Meeting held on 18.12.2020 (Virtual):

The 21st Weekly and 5th Business Meeting was held virtual on 18.12.2020 (Friday), from 7 to 8 PM. There were 14 participants. At the outset, President Rtn. Dr S. Minaketan welcomed the participants. After one-minute silence for world peace, he asked Secretary Dr. B. B. Samanta to read out the minutes of the last week's meeting. Dr Samanta reminded the minutes of the last meetings already circulated and asked the participating members whether it could be adopted. The minutes were unanimously adopted. This was followed by the Business Meeting.

On the status of Membership, Dr Samanta mentioned that with the induction of 5 new members in the last Board Meeting, held on 4th December along with the Club Assembly, the present number stands at 66. However, since there are 4 to 5 doubtful cases, it is advisable to have another 7 to 8 new members that will help in not only maintaining the status quo by the end of the Rotary Year but also achieve a 10% growth of members. A strategy was worked out on how to do that. Dr Minaketan pointed out his earlier advice of each one bring one.

As regards outstanding membership fees, Dr Samanta indicated that while on 15th of August, 33 members had not paid their membership fees, with rigorous follow up, the same has now come down to 9. Barring 4 doubtful members, he was optimistic to get fees for 5 more members or at least 4 more. With regard to forming/activating Rotract/Interact Clubs, Rtn. Chinmaya Mahapatra explained the present status. He mentioned that this would be tried out once the educational institutions are opened. On bringing out the Members' Directory, Rtn Chinmaya pointed out that he had the details for 23 members and expects the Directory to be ready before end of this year. Dr Samanta mentioned that he (Chinmaya) could take the help of the recently published District Directory and contact members to get the details. This was agreed to.

This was followed by the release of 6th E-Magazine by Dr Minaketan and he thanked Rtn. Chinmaya, RCBH Editor for his efforts. As customary, Rtn. Shri B.K.Sahoo announced the birth day of the members and their spouses and their marriage anniversary.

Before the end of the Session, Dr Minaketan announced about the Club's Annual Picnic to be held on 25th December. The venue will be announced soon, he added. He further mentioned that this time subscribing for the picnic will not be there. It will be purely voluntary for the members to contribute, if they wish. Dr Samanta mentioned that there would be 5th Board Meeting in the sidelines of the picnic. It will be very brief and in no way will affect the picnic.

After a vote of thanks and playing of the National Anthem, the President called the meeting adjourned.

22nd Weekly cum 5th Board Meeting & Annual Picnic held on 25.12.2020:

The 22nd Weekly and 5th Board Meeting was held (physical) on 25.12.2020 (Friday), at Horticulture Center of Excellence, Deras. This was done in the sidelines of Club's Annual Picnic. 19 members were present with their family. Two more members joined later taking the total to 21. In all there were more than 50 participants who joined the picnic that was full of fun. The place was exclusive for RCBH, thanks to our Vice President Rtn. Shri Manmath Kumar Pani. After an exchange of pleasantries, around 30 minutes were spent on conducting the 22nd Weekly cum 5th Board meeting of the Club, to transact a few important agenda items.

At the outset, President Rtn. Dr S. Minaketan welcomed the participants. After one-minute silence for world peace, he asked Secretary Dr. B. B. Samanta to read out the minutes of the last week's meeting and 4th Board Meeting. Dr Samanta reminded the minutes of the last meetings already circulated and asked the participating members whether it could be adopted. The minutes were unanimously adopted. This was followed by the Board Meeting.

On the status of Membership, Dr Samanta mentioned that with the induction of 5 new members in the last Board Meeting, held on 4th December along with the Club Assembly, the present number stands at 66. Four new members (2 home coming) were to be inducted today, he added. While this would ensure meeting the number of existing members intact, a few more members need to be introduced to keep the norm of achieving the 10% growth of membership besides taking care of any possible dropouts from the existing members. A strategy was worked out on how to do that. Dr Minaketan pointed out his earlier advice of each one bring one.

As regards the action to be taken for those who have not yet paid their membership fees for 2020-21, a detailed discussion was held and some suggestions came from different members, Finally it was agreed that as a last resort an attempt would be made to personally contact such members failing which their names should be removed from the existing list by 31 January, so as to reduce the financial liability of the Club. This was agreed to. CP, Rtn. Shri Debabrata Panigrahi along with President and Secretary volunteered to do this job. If any other member wishes to join, he or she can do it.

President Dr Minaketan mentioned that President of RC of New Horizon had requested whether some activities, as a follow up to the District Env. Seminar, could be undertaken between RCBH and their Club. Members suggested, since RCBH has plans to undertake some activities on the subject (e.g., Installation of Street lights using solar power and Plantation), in the 5 adopted tribal villages, it may prudent to stick to the same, rather than taking up some new activities. This was agreed to.

In the absence Rtn. Chinmaya Mahapatra and Rtn. B. K. Sahoo (they joined later), other two items of the agenda could not be taken up.

This was followed by induction of four new members (2 home coming) thanks to the efforts of CP Rtn. Shri Debabrata Panigrahi, PE P. C. Das and Chinmaya Mahapatra. As there was no additional point to discuss, the President requested VP, Rtn. Shri Manmath Kumar Pani to propose a vote of thanks followed by adjournment of the meeting.

The members were then left free for the social get together. The music session that followed, brought out the hidden talents of RCBH members and their families. This was led by PE Rtn. P.C.Das. Mrs Ajanan Panda (one of the home coming members) and VP, Rtn. Shri B.N. Nayak who did the anchoring with professional touch. It was a great fun. Those who wanted to join fellowship group, participated at a separate designated place. A few, mostly youngsters, remained busy in angling in the nearby tank. In short, there was something for every body's choice. A sumptuous lunch was waiting that everybody enjoyed.

The most beautiful part of the whole event was that not a single paisa was spent from Club funds in organizing this event. Only four members volunteered to contribute to the entire cost and wanted their names to be kept secret. That was really the Rotary Spirit of friendship and fraternity and spoke volumes of the fellow ship among our club members. This set an example for a couple of other members volunteering to organize similar events in the near future.

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

Paul Harris: *Rotary's Founder*

Rotary started with the vision of one man — Paul P. Harris. Paul Harris at age 3, around the time he moved to his grandparents' home. Harris was born on 19 April 1868 in Racine, Wisconsin, USA. At age 3, he moved to Wallingford, Vermont, where he grew up in the care of his paternal grandparents. He attended the University of Vermont and Princeton University and received his law degree from the University of Iowa in 1891.

In 1896, Harris settled in Chicago and opened a law practice. Four years later, he met fellow attorney Bob Frank for dinner on Chicago's North Side. They walked around the area, stopping at shops along the way. Harris was impressed that Frank was friendly with many of the shopkeepers. He had not seen this kind of camaraderie among businessmen since moving to Chicago and wondered if there was a way to channel it, because it reminded him of growing up in Wallingford.

"The thought persisted that I was experiencing only what had happened to hundreds, perhaps thousands, of others in the great city. ... I was sure that there must be many other young men who had come from farms and small villages to establish themselves in Chicago. ... Why not bring them together? If others were longing for fellowship as I was, something would come of it."

Jean and Paul Harris board a ship after visiting Rotary members in Bermuda, 1925.

Harris eventually persuaded several business associates to discuss the idea of forming an organization for local professionals. On 23 February 1905, Harris, Gustavus Loehr, Silvester Schiele, and Hiram Shorey gathered at Loehr's office in downtown Chicago for what would become known as the first Rotary club meeting. In February 1907, Harris was elected the third president of the Rotary Club of Chicago. Toward the end of his presidency, he worked to expand Rotary beyond the city. Some club members resisted, not wanting to take on the additional financial burden. But Harris persisted, and by 1910, Rotary had expanded to several other major U.S. cities.

Harris recognized the need to form a national association with an executive board of directors. In August 1910, Rotarians held their first national convention in Chicago, where the 16 existing clubs unified as the National Association of Rotary Clubs (now Rotary International). The new association unanimously elected Harris as its president. At the end of his second term as Rotary president, Harris resigned, citing ill health and the demands of his professional practice and personal life. He was elected president emeritus by convention action, a title he held until his death.

In the mid-1920s, Harris became actively involved in Rotary again, serving as the public face of the organization. To promote membership and service, he attended conventions and visited clubs throughout the world, often accompanied by his wife, Jean. Harris died on 27 January 1947 in Chicago at age 78, after a prolonged illness. Before his death, he made it known that he preferred contributions to The Rotary Foundation in lieu of flowers. By coincidence, days before he died, Rotary leaders had committed to a major fundraising effort for the Foundation.

Upon news of his death, Rotary created the Paul Harris Memorial Fund as a way to solicit these donations. Rotarians were encouraged to commemorate the late founder of Rotary by contributing to the fund, which would be used for purposes dear to Harris' heart. In the 18 months following his death, The Rotary Foundation received \$1.3 million, which helped support the Foundation's first program — scholarships for graduate study abroad.

Fellow Rotarians

It is a pleasure moment to have our first printed bulletin of the RCBH. This is now in juvenile stage. With experience and enhanced outreach this will grow as an alluring messenger of our club.

It is imperative to sustain the enthusiasm and drive as exhibited during this pandemic crisis hour which will ensure us of not only transforming to a well organized and mature club but also one with an illuminating future. As we step towards the normal lifestyle combating this pandemic crisis situation, we learn more about the importance of Rotary as "Rotary Opens Opportunities"

We found new ways of digital platform to have meetings and communicating with our members. All of us are doing our bit for the betterment of our communities and hopefully in the near future we will be able to speak to each other face to face, whether at our club meetings, community project or whatever and never forget the exciting digital meetings.

The E-Bulletin of our club will be published twice in a month. The editor's job is definitely a pleasant one, provided that he gets all the assistance. It is most essential that all committee chairmen will report their individual committee meetings to the Editor within stipulated time. The Bulletin also commence to make space available for letters to the Editor and it would be appreciated if members send short or long articles which are of interest to other members and community.

Copy submission deadline for any article is 7 days prior to publication. Copy received after the deadline will be held for the subsequent publication.

Send your articles to rtnchinmaya@gmail.com

Well, do help me in my job as your editor by sending me the matter as much as you can. Until then keep going and stay safe.

Message from

Outgoing President

Dear Friends, Rotary Greetings,

I have finally crossed the finish line thus ending my term as the President of this premier club. Today being the 12th Installation Day as the President, as the 11th President, I have to express my gratitude to all for making this year so special and different. I have good reasons to express my heartfelt thanks to Club Advisor, Past Presidents, Board Members and Members of our club for giving me the opportunity to serve and who stayed active during our weekly meetings and community service projects. We have had an amazing, fantastic journey of service above self, to make Rotary a difference. All I ever wanted and continue to want out of life is to give 100% to whatever I am doing and committed to whatever I have done and let the results speak for themselves. Performing the last official act today as club president gives me a feeling of excitement not because my seat is changed but because this allows me to look back and objectively assess what our club has accomplished in this year. Our club received the much sought after RI President Citation; in terms of our contributions in community service is one of the highest in the District. During the year a number of activities were conducted revolving around the six focus areas of Rotary. I am satisfied that I get the opportunity to complete my tenure with full of cooperation from each and every members of the club. In the Rotary year 2019-20, two of our esteemed member became MPHF and donated US\$ 1050 to Rotary Foundation. They are none other than Rtn. Dr. Bidhu Bhusan Samanta and PP. Rtn. Vinod Kumar.

We have also donated INR 7500 equivalent to US\$ 100 to Polio Fund. We have successfully adopted some new initiatives like multiple Mega Health Check up Programmes, Mega Blood Donation Camps, Mega Plantation programme, FANI Cyclone Restoration Programme at Dugal and Sarangajodi GP of Satyabadi Block, Puri, Distributed 12 varieties vegetable seed kits to FANI Cyclone affected area. Conducted Occupational Hazards Reduction Eye Camp at ABBEY West Services, Conducted more than 120 Community Eye Camps through which restored 6000 eye sights, Installation of E- learning Kits for smart class in school & distribution of Educational materials, Organised 5 phases of COVID-19 Relief Programme in Nayagarh, Dhenkanal and Bhalunka Area, Installation of Hands Free Sanitizer Dispenser in different public service offices of Bhubaneswar. Organised District Grant Management Seminar, International Youth Day Celebration & Youth Seminar, Seminar on Urban Horticulture and Rooftop Gardening, Odisha Eye Health Conclave, Felicitation of Two Young Rotarian Cyclist.

A year ago I confessed that I had hoped to be able to add my piece of stone to the edifice that we are collectively building and to which the Past Presidents before me have contributed during their tenure. A year hence I step down secure in the reflection that I did my part in sustaining the club's Goals of being recognised at District and RI level. I acknowledge the hard work and utmost dedication of the team who toiled to achieve those Goals and targets. In democracy and Rotary, it is difficult to make everyone happy. I might not have been able to keep everyone happy during my Presidentship. Those were some critical moments and I have taken decision by keeping Club's larger interest in mind. Our opinions may vary, but we are all together in the interest of the Club.

My experience of being a Club Leader was an amazing experience and this has added more skills to my leadership and Organisational abilities. Of course now I will be able to give more time to my professional activities, however my Rotary Commitment is still on.

Once again, I submit my profound thanks all our Rotarians, Club Members, Past Presidents, Club Advisor, Partner Club and Corporate those who has helped us in various programme. I also extend all my support to the incoming President and the new team on whatever way they need.

I am looking forward to pass on the torch of club leadership to our New President Rtn. Dr. S. Minaketan. I wish him a vibrant Rotary year and I hope he enjoys the experience of being President as much I have. As with many president before me the wheel of Rotary has to go on so as our commitments.

Yours in Rotary

Rtn. Dr. Sarangadhar Samal

Dear Smiling President

Congratulations and wish you All the Very Best' for Rotary Year 2020-21. Towards the fag end of RY 2019-20 we have seen one of the most scary incident affecting the whole world i.e. the COVID-19 Pandemic. This has made a paradigm shift in the way we live, we communicate, we celebrate and the way we are socializing because of the restrictions due to the pandemic among all the citizens of the world. We are compelled to change the mode of our meetings and get-togethers. But then, as they say, 'Every Change is for Good' and we should accept it with folded hands. Wherever physical meetings are done the number of attendees should be restricted as per the government restrictions. I am sure you will be adopting one of the systems based on the popular opinion in the Club. Whichever way you

adopt, try to do it in the most befitting way so that members are fully involved and engaged. Because my dear Smiling President, engaging members during RY 2020-21 is going to be a challenge for each Club Leader and for this you have to constantly be innovative and creative. Perception of Service Activity also will undergo a paradigm shift keeping in mind the changed scenario. I am sure, under your able leadership and the guidance of all the senior members of your Club, RC Bhubaneswar Heritage will be coming out with flying colours during RY 2020-21 and make the World of Rotary' Proud and privileged.

Once again Wish you all the Very Best.

With Warm Wishes

Dear Smiling President
Rtn Satyabrata Minaketan
Rotary Club of Bhubaneswar Heritage

I want to Congratulate you on your Installation to the office of 2020-21 as your Club President. Use your smile to change the world; don't let the world change your smile. I am glad to know that your Club is organising its Installation Ceremony & Charter day on 25.08.2020 virtually. Rotary International President Holger Knaack had said "We cannot stand still and be satisfied with everything we have done. The digital revolution has affected us much harder than we anticipated. Others have faced this challenge before us and fared poorly. Time will not slow down for us. But we will not let rapid change defeat us. We will capture this moment to grow Rotary, making it stronger, more adaptable, and even more aligned with our core values."

While giving emphasises on RI circular now we have to take up a challenge to open the doors of Rotary for Rotractors and young professionals. I will love the diversity of generations in our existing Rotary clubs having members from 27 to 80 — a multi-generation club. I am sure many clubs will succeed in doing this.

We also should take responsibility to take action on our world's most persistent issues and the clubs should work together to Promote peace, Fight disease, Provide clean water, sanitation, and hygiene, Save mothers and children, Support education and Grow local economies

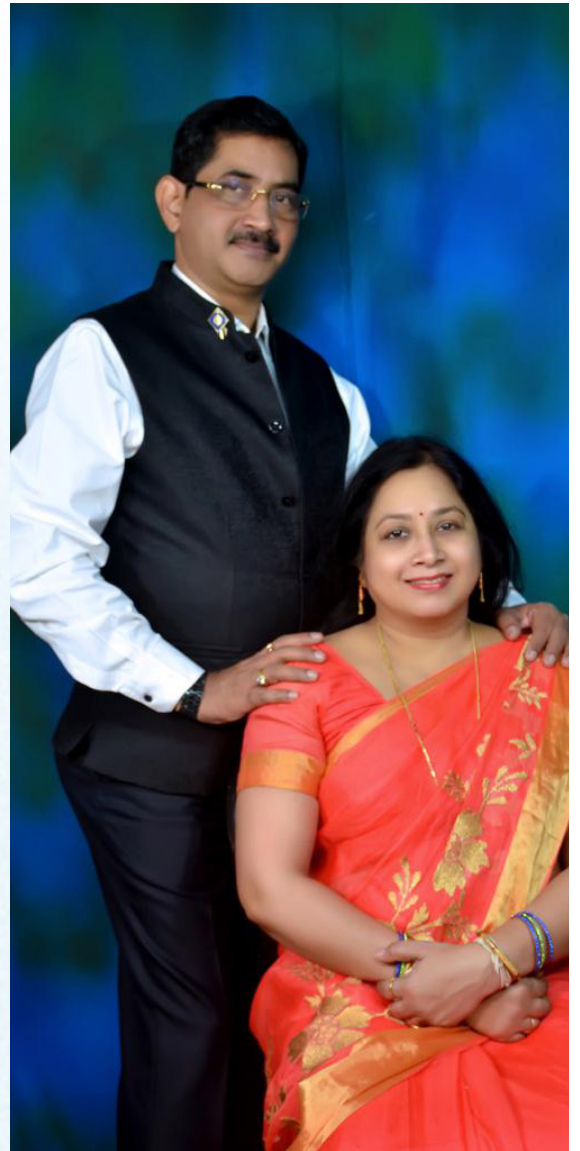

In the current pandemic scenario of COVID 19, Rotary India Humanity Foundation RIHF helped mobilizing more than Rs. 30 crores from Rotarians, Rotary Clubs and Others for PM Cares Fund and also reported having done projects and services worth Rs. 100 Crores for the benefit of the Community during the lockdown period pan India. Give importance to its areas of focus and do projects on it.

My promise is that I will give my utmost to carry our District's flag high in translating RI President Rtn Holger Knaack's concept of "Rotary Opens Opportunity".

Sarita joins me in wishing the Installation Ceremony and the publication of the souvenir all success.

Let's enjoy your year in Rotary Service with Smile... Share... And Service.

I look forward to having you join me to "Rotary Opens Opportunity"

Rtn A.B.Mohapatra

District Governor 2014-15
Rotary International District 3262

At the outset, I invoke the blessings of Lord Jagannath to keep everyone in good health and safe in this difficult situation due to COVID-19.

I am happy to know that Rotary Club of Bhubaneswar Heritage is going to have their virtual Installation Ceremony of new office bearers for the Rotary Year 2020-21 and Club's Charter Day on 25th of August 2020.

At the stroke of mid night of 30th June every year the Rotary wheel completes it's one more turn and gets ready to move towards another cycle of service for the cause of ROTARY. The Leaders are changed every year in Rotary but leadership continues.

The current Rotary Year is a challenge for Rotary clubs around the world when human society is struggling for it's existence due to the current PANDEMIC. However, when faced with alarming situations in the past, Rotarians have proved their credibility in service to mankind. Rotary International and it's Foundation have immediately swung to action to assist clubs through disaster grants to fight with this dangerous virus. " Rotary Opens Opportunities" is the THEME given to us by RI President Holger Knaack asking Rotarians to create opportunities that strengthen their leadership, help put service ideas in to action and improve the lives of those in need. Truly, a meaningful and inspiring theme in the current situation.

Friends, the outgoing Rotary International Leader Mark Maloney has truly connected us in RY 2019-20. We are thankful to our Shining Governor Debashish and Clubs Shining Presidents for their wonderful leadership and need based activities. We have entered to Rotary Year 2020-21 under the Leadership of DG Rtn. Saumya Ranjan Mishra who has the vision to take Rotary to Public in a more better way. We are confident. Let's move together.

Rotary Club of Bhubaneswar Heritage is one of the best Clubs of our District 3262 which is always remembered for it's outstanding performance. I congratulate the outgoing President Prof Sarangadhara Samal and his team for their excellent performance and confidently look forward to another glorious year of Rotary 2020-21 by the new team under the dynamic leadership of President Rtn Chinmaya. All the best.

GOD BLESS

Yours in Rotary Service

*Every Great Dream
Begins With A Dreamer*

Warm Greetings to Rotary Club of Bhubaneswar Heritage RID 3262 on your Charter Day which is on 25th of August. Your Charter is a piece of paper issued by Rotary International which authorises you to call your club a Rotary Club. It is the result of the hard work of some dedicated Rotarians from a neighbouring club, who led a provisional group through the process of petitioning a charter to become accepted by the international organization. Thus, dream of any club began with a dreamer who Dreamt it – Believed it – Achieved it with a mind of captain manoeuvring the ship. The charter solidifies the club's identity and strengthens our belief that we can achieve success.

Let us “Open the Opportunities” and fulfill our commitment to help others in our community, our country and our world. May we abide by the rules we have established, those of trust, fellowship, ethics and may we place Service Above Self in our daily endeavors. And may we always test ourselves and our efforts to be sure they are the truth, good for all concerned, of benefit to mankind and provide peace and understanding. The great Greek orator, Pericles, who lived 495 to 429 BC and his words are still applicable today – “What you leave behind is NOT what is engraved in stone monuments, but what is woven into the lives of others.”

I congratulate Charter President Rtn. Debabrata Panigrahi, who has planted the seed of this club which has now grown into a tree named Rotary club of Bhubaneshwar Heritage. I also congratulate President Rtn. Dr S Minaketan, Rtn. Dr B B Samanta and Editor Rtn. Chinmaya Mahapatra and their team will conquer the pinnacle and Open the Opportunities to serve.

My Dear Trailblazer Members from R.C Bhubaneswar Heritage

Greetings from RID 3170!!

Let me first Congratulate and wish each one of you for celebrating your Charter Night on the 25 th of this month. I wish you many happy returns of the day and solicit blessings from Almighty to give strength to

your club to Do Good to the World. My friends, if you wish to do more good, you require more hands and more volunteers and that means that you must have more members. You need to explain and emphasize to your new members that Rotary is not just a Club where people join, but it is an invitation and a gateway to endless opportunities

in life. Our Rotary International President Rtn.Holgar Knaack gave us a prophetic theme for the year: ROTARY OPENS OPPORTUNITIES in January when we were unaware of the COVID 19 Pandemic. This pandemic has changed the entire scenario of the world. May it be Economics, May it be politics or may it be communications. Everything has changed. However we as Rotarians have accepted the challenges and have seen this era as a door which has Opened Opportunities. Everything that we have done has opened opportunity for someone, somewhere.

You need to explain to the new members that Rotary opens pathways for them to improve their lives and lives of those they help with the service projects. Rotary shall open leadership opportunities for them and a chance to put their service concepts in to action and make lifelong connections. You need to mentor the new members and ensure that they become an integral part of the organization and do not even think of leaving it.

President Holgar says : GROW ROTARY . He gives a very simple formula to increase Club Membership. “ EACHONE GET ONE “. He urges Rotarians to speak about Rotary wherever they go and whenever they get an opportunity. This shall propagate to get more new members. He also says that involve Youths and more lady members to make Rotary more active. He says that there are 6 Lady Rotarians who are a part of the Rotary International Board of Directors this year. He wants the lady membership to grow to 25 %. However he also cautions that whilst inviting new members, one should not let aside the Quality of membership. Just do not increase membership for Statistical achievements. Get Qualitative members because they are going to be your friends for lifetime.

I am sure that you shall all pledge on the occasion of your Charter Celebrations that you shall develop good and qualitative membership for your Club and Open Opportunities to various new prospective personalities.

In Rotary,

Sangram Patil

Rotary Greetings !!!

I am glad to know that “You” are going to take over as the President of a 11 yrs old club – RCB Heritage and the Installation cum Charter Day ceremony is going to be held on 25th August’2020.

Communities are our responsibility and we have to act accordingly : Taking the initiative, making the effort and doing what is right and not what is easy. We have to go extra mile and leave our Footprint before handing over the baton.

Parallel to new projects, we must ensure that Society is getting benefit out of those projects done by the Past Presidents. Because, they have put lot of money, energy and time to execute those projects. Further, best job has been done by Rtn Dr Sarangadhar Samal , President for the RY 2019-20. It is always advisable to keep IPP side by side of all your projects and activities during RY 2020-21.

We have to work in 7 Areas of Focus of Rotary. To walk safely, President needs to keep his members engaged and energized. With their co-operation President can do much more work to improve the lives of the less fortunate and Society at large.

In this occasion, I would like to congratulate “You” , “Charter President Rtn Debabrata Panigrahi” “Charter Secretary Rtn Santanu Ku Mishra” “Other Charter Members”&each of the “New Board Members”. Now it is our duty and responsibilities - how we are going to encase member’s Talent, Knowledge, Abilities, Time, Effort ,Generousness, Connection, Dedication and Devotion. By uniting them and taking meaningful services from others, you can justify the theme “Rotary Opens Opportunities”.

Every work that is done in Rotary, it all starts with an IDEA from a Single Rotarian and that idea spread among all other Rotarians to carry the work. So we must respect the idea of our team members.This is the beginning. At the end of the day, the only thing that matters in Rotary is, how much better the world becomes because Rotary’s intervention.

On this occasion, Team RC Balasore & Jharana join with me in sending our Best Wishes to all the members of Your Club and wish the Installation cum Charter day Ceremony and Rotary Year 2020-21 a Grand Success.

BandeUtkalaJanani!!!! Jai Hind!!!!

With best Regards,
Sincerely Yours in Rotary Service

EACH ONE BRING ONE

Membership

Oh no! Not again. I can almost hear you say. Not another article on membership. Haven't we read / heard it all before? But let me ask you a question on the biggest issue facing Rotary in the next decade. I've heard the same question over 30 years since I joined Rotary and the answer has been Membership. Membership is not just about numbers; this growth is the momentum of our organisation. It increases our human resources, develops leaders and when we attract and retain members it's a great testimonial to the value of Rotary membership.

I SHALL TALK TO YOU ONLY ON RETENTION IN MEMBERSHIP ONLY:

To me, an educated Rotarian is a happy Rotarian. If a Rotarian is happy, they are going to stay in our organization and contribute much. They are going to feel good about themselves and the good deeds they accomplish for others in need.

There is a proverb that says; Give a man a fish and he eat for a day. Teach him how to fish and he eats for a lifetime.

This has a lot to do with Membership Retention. Do we actually TEACH our Rotary Club members what Rotary is all about, or do we keep it to ourselves? There is so much to learn about this great organization called Rotary. What is lacking is the time to teach and share knowledge about Rotary at our weekly club meetings. A person who is interested in Rotary can almost become a student of Rotary. I know I learn something new about Rotary everyday!

I am always amazed at how many Rotarians tell me that they do not need to go to PETS, the District Assembly, the Membership Seminar, or the Foundation Seminar. Most times they tell me that; I have been in Rotary for many years and there is nothing new I can learn about Rotary!? As a District Governor who has attended much training for my positions in Rotary, I still do not know everything there is to know about Rotary, as it is such a diverse organization in its' many programs and projects.

The 20th President of the United States, James A. Garfield, (1831-1881) said, "In order to have any success in life, or any worthy success, you must resolve to carry into your work a FULLNESS of KNOWLEDGE..... not merely a sufficiency, but more than a sufficiency. Be fit for more than the thing you are now doing. Let everyone know that you have a reserve in yourself; that you have more POWER than you are now using. If you are not too large for the place you occupy, you are too small for it".

The more power we give our Rotarians, the more engaged they will be, and the longer they will stay. The more knowledge our Rotarians gain about Rotary, the more they will love Rotary and what Rotary stands for. Happy Rotarians have a reason to retain their membership, and they also will feel compelled to tell others that we are a worthwhile organization to join.

Indeed, Rotary is not ours, till we have shared it with someone else.

I'm committed to bring new people into Rotary this year. How about you? Thank you for what you do for Rotary!

Rtn Harish Gaur

District Governor 2019-20 & 2020-21 (RID 3053)

Giving Is Good for You

Holiday shopping can be terrifying, yes. But research suggests it's worth it: New studies attest to the benefits of giving—not just for the recipients but for the givers' health and happiness, and for the strength of entire communities.

Of course, you don't have to shop to reap the benefits of giving. Research suggests the same benefits come from donating to charities or volunteering your time, like at a soup kitchen or a homeless shelter. Here are some of the ways that giving is good for you and your community.

- 1. Giving makes us feel happy.** A 2008 study by Harvard Business School professor Michael Norton and colleagues found that giving money to someone else lifted participants' happiness more than spending it on themselves (despite participants' prediction that spending on themselves would make them happier). Happiness expert Sonja Lyubomirsky, a professor of psychology at the University of California, Riverside, saw similar results when she asked people to perform five acts of kindness each week for six weeks. These good feelings are reflected in our biology. In a 2006 study, Jorge Moll and colleagues at the National Institutes of Health found that when people give to charities, it activates regions of the brain associated with pleasure, social connection, and trust, creating a "warm glow" effect. Scientists also believe that altruistic behavior releases endorphins in the brain, producing the positive feeling known as the "helper's high."
- 2. Giving is good for our health.** A wide range of research has linked different forms of generosity to better health, even among the sick and elderly. In his book *Why Good Things Happen to Good People*, Stephen Post, a professor of preventative medicine at Stony Brook University, reports that giving to others has been shown to increase health benefits in people

with chronic illness, including HIV and multiple sclerosis. A 1999 study led by Doug Oman of the University of California, Berkeley, found that elderly people who volunteered for two or more organizations were 44 percent less likely to die over a five-year period than were non-volunteers, even after controlling for their age, exercise habits, general health, and negative health habits like smoking. Stephanie Brown of the University of Michigan saw similar results in a 2003 study on elderly couples. She and her colleagues found that those individuals who provided practical help to friends, relatives, or neighbors, or gave emotional support to their spouses, had a lower risk of dying over a five-year period than those who didn't. Interestingly, receiving help wasn't linked to a reduced death risk. Researchers suggest that one reason giving may improve physical health and longevity is that it helps decrease stress, which is associated with a variety of health problems. In a 2006 study by Rachel Piferi of Johns Hopkins University and Kathleen Lawler of the University of Tennessee, people who provided social support to others had lower blood pressure than participants who didn't, suggesting a direct physiological benefit to those who give of themselves.

3. Giving promotes cooperation and social connection. When you give, you're more likely to get back: Several studies, including work by sociologists Brent Simpson and Robb Willer, have suggested that when you give to others, your generosity is likely to be rewarded by others down the line—sometimes by the person you gave to, sometimes by someone else. These exchanges promote a sense of trust and cooperation that strengthens our ties to others—and research has shown that having positive social interactions is central to good mental and physical health. As researcher John Cacioppo writes in his book *Loneliness: Human Nature and the Need for*

Social Connection, “The more extensive the reciprocal altruism born of social connection . . . the greater the advance toward health, wealth, and happiness.” What’s more, when we give to others, we don’t only make them feel closer to us; we also feel closer to them. “Being kind and generous leads you to perceive others more positively and more charitably,” writes Lyubomirsky in her book *The How of Happiness*, and this “fosters a heightened sense of interdependence and cooperation in your social community.”

4. Giving evokes gratitude. Whether you’re on the giving or receiving end of a gift, that gift can elicit feelings of gratitude—it can be a way of expressing gratitude or instilling gratitude in the recipient. And research has found that gratitude is integral to happiness, health, and social bonds. Robert Emmons and Michael McCullough, co-directors of the Research Project on Gratitude and Thankfulness, found that teaching college students to “count their blessings” and cultivate gratitude caused them to exercise more, be more optimistic, and feel better about their lives overall. A recent study led by Nathaniel Lambert at Florida State University found that expressing gratitude to a close friend or romantic partner strengthens our sense

of connection to that person. Barbara Fredrickson, a pioneering happiness researcher, suggests that cultivating gratitude in everyday life is one of the keys to increasing personal happiness. “When you express your gratitude in words or actions, you not only boost your own positivity but [other people’s] as well,” she writes in her book *Positivity*. “And in the process you reinforce their kindness and strengthen your bond to one another.”

5. Giving is contagious. When we give, we don’t only help the immediate recipient of our gift. We also spur a ripple effect of generosity through our community. A study by James Fowler of the University of California, San Diego, and Nicholas Christakis of Harvard, published in the *Proceedings of the National Academy of Science*, shows that when one person behaves generously, it inspires observers to behave generously later, toward different people. In fact, the researchers found that altruism could spread by three degrees—from person to person to person to person. “As a result,” they write, “each person in a network can influence dozens or even hundreds of people, some of whom he or she does not know and has not met.” Giving has also been linked to the release of oxytocin, a hormone (also released during sex and breast feeding) that induces feelings of warmth, euphoria, and connection to others. In laboratory studies, Paul Zak, the director of the Center for Neuroeconomics Studies at Claremont Graduate University, has found that a dose of oxytocin will cause people to give more generously and to feel more empathy towards others, with “symptoms” lasting up to two hours. And those people on

an “oxytocin high” can potentially jumpstart a “virtuous circle, where one person’s generous behavior triggers another’s,” says Zak.

So whether you buy gifts, volunteer your time, or donate money to charity this holiday season, your giving is much more than just a year-end chore. It may help you build stronger social connections and even jumpstart a cascade of generosity through your community. And don’t be surprised if you find yourself benefiting from a big dose of happiness in the process.

Changing Precipitation in Odisha

We are in the middle of a pandemic and we are crossing 70000 cases daily but somehow it has become the new normal. We are having about 1000 daily deaths due to corona virus in India. This has blurred our vision completely to such an extent that we have turned a blind eye to other important issues which needs attention. One of the deadliest issues is Climate Change- which has been put to the backburners of our minds. People say, its slow but it is changing the socio economic landscape rapidly. The 3rd world countries are agreeing to adopt green and cleaner technologies but on the other hand, the so called first world countries have taken out their support from the very important Paris Agreement deal on Climate change.

The present time is probably the only time when humanity has a chance to reverse back the man made global warming and injury inflicted on mother earth. But all efforts would go in vain if every country in the world do not come to a common ground and agree on the measures to be adopted to curb climate change catastrophes. Stephen Hawkings had warned that mankind would have to search for another planet in the next few hundred years as human activity would soon render many areas in earth as uninhabitable. Even our own Ex President APJ Abdul Kalam had warned that due to climatic change, the humanity would end in no less than the next 30 years. We are therefore living in dangerous times. Talking as a whole about Odisha, it has been observed that typhoons have become very frequent since the last 6-7 years and are wreaking havoc. Everything cannot be left on the disaster management capabilities of the government in power. Instead strong measures are supposed to be taken and acted upon by the government and people as a whole.

We have observed late monsoon showers in almost all districts of odisha in the year 2020. It has been recorded that there has been 56 to 70% deficit in rainfall as compared to last year. There was almost drought like situation prevailing over most of the districts in odisha until luckily we had a depression over Northern Bay of Bengal, which provided some relief to monsoon dependent farmers of Odisha. These can be traced back to human activities mainly chopping of forests and trees for road expansion, and planting saplings which have low carbon sequestration capacity. For eg: in the year 2013, about 7500 trees were chopped off just for a highway expansion in the capital city of Odisha. These are signs which citizens and government should take notice of. There are other signs that is coming up in global news now - For instance, Frequent Forest Fires, Highest recorded temperature on earth in Death Valley. It was recorded at 54.5 degrees C. We also had heat looming over Arctic circle and temperatures recorded there was 30+ degrees Celsius. As a coastal state we cannot really wait every summer and october for a new typhoon and live our lives in terror after hearing every depression situation in Bay Of bengal. This is the right time we need to act. The Government is for sure doing its job but as responsible citizens, we need to do our part too. We need to take certain measures at our end to reduce our individual carbon footprint, protest against the insensitive chopping of trees, keep our Air Conditioners at 24 degrees celcius, avoid wastage of water and electricity by not keeping our devices on standby, by using public transport, by trying to install a solar panel at our homes (This will reap benefits for the years to come) and finally by planting a tree and taking care of it.

MEMBERSHIP: The Only Challenge for Rotary in its 2nd Century

“Rotary’s Membership has become stagnant...”

“Rotary’s Membership is stuck at 1.2 Million for 2 decades...”

“We need to bring in new members to cross the barrier...”

“Each One, Bring One...”

How many times have we heard these sentences from Rotary leaders from the stage? Almost every Rotary event worldwide repeats these words, even in regions where Rotary has been consistently growing over the last decade. Rotary first reached the 1.2M mark in the mid-nineties and it has been a matter of concern for Rotary leaders worldwide that the oldest and one of the finest humanitarian service organisations across the globe is not growing. And do you understand what this means? It means we are not able to strengthen ourselves further to empower ourselves to expand our reach of service. It also means we do not have enough hands to accelerate the pace of the difference that we want to make to this world. It means we are taking a little too much time to organise, gather resources and implement humanitarian projects. So, what is the problem? Why has our membership become stagnant inspite of our experience of adding so many new members in every Installation Ceremony and adding new so many clubs every year?

The answer is more members leave Rotary than we are able to add every year. The big problem is Retention, not that of inviting new members. And what is the solution? The solution lies in adopting a holistic approach including adding new members and ensuring their retention.

How to do it? One, add new members, no doubt. We need more like-minded people, service minded people, people with a helping spirit, people who are willing to go all the way to make the life of a fellow human better. If we make a new thumb-rule, why can't we think of adding 1 new member per existing member every year? Can we not find 1 worthy person in a 1000 people that we know who could be a potential Rotarian? If not, we are in a wrong circle of people. It is just that we do not care to invite. Someone invited us into Rotary, and it is our first and foremost duty to carry forward that legacy. Everyone, bring one, every year. Two, expand the reach of Rotary to unrepresented areas/regions of the population. Look out for possibilities of starting new Rotary clubs in cities/towns where there is none. In distant rural places, start with a satellite club, and gradually convert them into a separate new Rotary club. Every taluka headquarter in India should have a Rotary club. Three, member orientation. Obviously, an ignorant Rotarian is sure to exit. Proper member orientation before and after granting membership is very important and mostly neglected. Four, member engagement. The most disastrous reason for members leaving Rotary is that they are not engaged. They are not heard. They are not understood. They are not given any importance. They are not given any responsibility. They are not included. Every individual joining Rotary has a purpose and a dream of the organisation and own role in it. If the club does not match his purpose, it leads to member disinterest and exit. Groupism, politics, self-promotion, and disregard to traditions, rules & protocols, whims of club leaders – all lead to member disinterest. Five, effectively interesting programs. A balance of fellowship activities and service projects through informative & knowledge sharing meetings, community service projects, family participation, and self-growth opportunities keep members interested. Plan the year accordingly.

It is our duty to think about Rotary Membership. It is our duty to contribute in this aspect. Any Rotarian neglecting this duty is not a worthy Rotarian. Do not only add members, mentor them, nurture them, motivate them, inspire them. Let us make a target – let's resolve to double the membership of our club in 3 years. Make a plan for your club and execute it. It is my challenge to you.

Rotary Seventh Area of Focus

SUPPORTING THE ENVIRONMENT

The Rotary Foundation Trustees and Rotary International Board of Directors have both unanimously approved adding a new area of focus: supporting the environment. More than \$18 million in Foundation global grant funding has been allocated to environment-related projects over the past five years. Creating a distinct area of focus to support the environment will give Rotary members even more ways to bring about positive change in the world and increase our impact. RI President Mark Maloney says that during his travels around the world as a Rotary senior leader he encountered many Rotary members and Rotaractors who advocated for the environment to be an area of focus. “I believe strongly that our Rotary Foundation programs now have a valuable added dimension to our efforts,” says, Maloney. Foundation Trustee Chair Gary C.K. Huang says that with the global population reaching near eight billion, protecting the environment is increasingly important. “It is time for us to use our collective resources to invest in a smart and efficient way to protecting our environment,” says Huang. “We are qualified to take this initiative because we are a global group of problem solvers with diversified talents.” In 1990-91, RI President Paulo V.C. Costa made the environment one of his primary causes, creating the Preserve Planet Earth subcommittee, which looked at ways clubs and members could conduct environmental initiatives. “We have finally caught up to Costa [his vision],” says Past RI President Ian H.S. Riseley, chair of the Environmental Issues task force, which championed the new area of focus. “As a lifelong environmentalist, I’m delighted that our great organization has recognized that the environment is a worthy and appropriate destination for our project activity,” says Riseley. “This is an exciting moment in Rotary history.” Supporting the environment becomes Rotary’s seventh area of focus, which are categories of service activities supported by global grants. It joins peacebuilding and conflict prevention; disease prevention and treatment; water, sanitation, and hygiene; maternal and child health; basic education and literacy; and community economic development. Grant applications for projects will be accepted beginning on 1 July 2021. Gifts and commitments from Rotarians and others will be sought to provide global grant support for the new area of focus. Rotary International President Barry Rassin had said that our environment is ‘ultimate mission’. Why should Rotarians care about climate change?

We’re people who care about our world. We want our world to be a better place, and it’s not just about the six specific areas of focus. It’s broader than that. We have to look at the world as a whole and how we can make it a better place. If we’re losing countries due to sea level changes, if stronger storms are disrupting water supplies or destroying people’s livelihoods, that’s more people

who are going to be disadvantaged. So caring about the environment goes toward our ultimate mission, and we should give it the importance it deserves. As a humanitarian organization, we're obligated to talk about it. We need to have the conversation.

All earlier six of Rotary's areas of focus are closely linked to the environment.

PROMOTING PEACE:

The connections between the environment and peace are many and complex.

Good management of ecosystems can lead to cooperative, resilient communities. Poor management of the environment undermines both natural and social systems. The resulting scarcities and competition for water and other natural resources can lead to increased insecurity, climate induced migration, and refugees.

FIGHTING DISEASE:

A healthy environment tends to lead to healthier people. Investing in environmental sustainability can promote our wellbeing. The degradation of the environment — the air we breathe, the food we eat, the water we drink, and the ecosystems that sustain us — is responsible for an estimated 1 in 4 deaths across the globe.

PROVIDING CLEAN WATER AND SANITATION:

Too many people in the world still lack access to safe drinking water, sanitation, and hygiene —basic elements of health and dignity. Effective management and protection of the environment is critical for successful water and sanitation programmes and can reduce risks to water supplies due to flooding, pollution, improperly managed sanitation, extreme precipitation events, and over extraction.

SAVING MOTHERS AND CHILDREN:

Approximately 7 million children under five die each year from lower respiratory infections and diarrheal diseases. Cleaning up the environment reduces preventable and premature deaths, improves the health of the children who survive, benefits their mothers, and improves the well-being of the entire family.

SUPPORTING EDUCATION:

Nature education creates better stewards of the air, land, water, and wildlife, which is critical for the sustainability of everyone's health. Young minds in well-nourished and healthy bodies are better able to benefit from education and literacy.

GROWING LOCAL ECONOMIES:

Prudent environmental practices support industry, agriculture, and services to meet both current and future needs of a community. Tapping alternative energy sources to reduce energy poverty and support local economies is essential for progress in all of the other areas of focus. For example, strategic microfinancing enables a community to install and use a solar-powered grid. Communities and their economies flourish when the air and water are clean, and nourishing food promotes health and well-being.

Home Based Gardening

can be a panacea for Covid 19 induced depression

Rtn Dr. P. Srinivas and Ann Dr. Deepa Khulbe

A blast of apprehensive thoughts stuck my mind as soon as I heard about the corona positive report of my close friend whom I had met last month. I was a bit worried and apprehensive about my own health and health of my family members consisting of my children in early teens and my parents in seventies. My wife and my self, both in jobs, try to take maximum precautions while attending office and while purchasing daily needs for kitchen and medicines. We wear masks, frequently sanitise our hands, wash our clothes daily, sanitise potential fomites, eat healthy food and all other precautions recommended by the wise men!! Despite all these precautions there is a constant pressure of increasing positive cases in the vicinity, in the State and elsewhere in our country. As a responsible and aware citizen, it is obvious to get anxious about the delay in the development of vaccine or India being featured on higher rungs of worst affected countries of the world. Increasing number of migrant fellow countrymen on the streets, increasing deaths of covid warriors, and increasing politics in all spheres of life tend to give sleepless nights.

Stress and depression have become a routine among us irrespective of our age or our state of financial health. Children and old parents not being able to leave home for months leave them tensed and irritated sometimes. The feelings of not being able to do anything to improve the situation makes us worried and feel helpless. The mind seeks to run away from such stark and difficult situation but there are not many outlets due to frequent shutdowns, closures of markets, restaurants, cinema halls etc.

Under such melee of uncontrolled situation gardening gives us a wonderful option to take refuge in the serenity and blissful company of nature. Gardening at home has given us few peaceful moments of life every day. Gardening gives us an outlet to get the disturbed mind to get involved in activities of creation of new life. Sowing seeds today gives hope of their germination tomorrow. The buds of today give us an eagerness to look forward to a beautiful flower tomorrow. There is an excitement in anticipation of spectra of flowering every day. Every day we get the lessons of courage and strength from the growing vines and shrubs. The tiny flying visitors, who come to our gardens unhindered and unaware of any restrictions of pandemic, open up our thoughts encouraging us to break through worried thoughts beyond the temporary pandemic situation. The energy in chirping of birds, the buzzing of bees and the rattling of leaves in our gardens give us the reasons to get up every morning and look up to a new canvas of nature.

The nutritious vegetables, the sweet and sour fruits, and the magical herbs give us a sense of fulfilment. The pure pollution and pesticide free immunity boosting bounties of nature reassure us that their nutrients will strengthen us from inside and channelize the blessings of the Gods above. The more we tender the plants more rewards we get and more happiness we cherish. And for once the stress seem to fade away !!! The excitement of gardening seems to have displaced the depressing thoughts and fill us with hope and rejuvenating flow of life !!

Gardens are our small piggy banks of happiness that we save for reaping in times of despair. And the enormous magnitude of Covid 19 pandemic has shown us our place and made us to realise that all the wealth and luxuries we were running after were mere mirages and the real treasure trove is in our backyard itself ... in the garden of peace and tranquillity.

Happy Gardening for happy and healthy body and mind !!

*The best place to find God is in a garden.
You can dig for him there.*

Club Advisor

Three Rotary Club members, all a little hard of hearing, were standing by the bowling green in the park. One remarked to the other

"Windy isn't it?"

"No" the second man replied, "its Thursday". The third man nodded in agreement:

"So am I. Lets have a cup of tea"

A doctor, lawyer, and a Rotarian in charge of fundraising all die and arrive at the Pearly Gates about the same time. St. Peter tells them they may each have one thing to take with them to Heaven.

The doctor is first, and asks for \$1 million. This is given and proceeds to enter Heaven. The lawyer, not to be outdone, asks for \$2 million. "Very well," say St. Peter and opens the gate to Heaven for the lawyer.

Finally it is time for the Rotarian, who had just finished a fundraising project for The Rotary Foundation. St. Peter asks him what he would like to take to Heaven. The fundraiser moves up very close to St. Peter, and in a soft voice asks, "It it's not too much trouble, could I just have the names of those two people who were ahead of me in line?"

After a morning fishing, a Rotarian left for a District meeting in the afternoon and his wife decided to motor out into the lake, drop anchor and read her book.

A Game Warden pulls up alongside the woman in his boat. "Good morning, Ma'am. What are you doing?"

"Reading a book" she replies.

"You're in a Restricted Fishing Area" he informs her.

"I'm sorry, officer, but I'm not fishing, I'm reading".

"Yes, but you have all the equipment. For all I know you could start at any moment. I'll have to take you in and write you up."

"If you do that, I'll have to charge you with Sexual assault" says the woman.

"But I haven't even touched you," says the game warden.

"That's true, but you have all the equipment. For all I know you could start at any moment."

"Have a nice day ma'am" the warden said, and he left.

It is common practice to expect new Rotarians to give a talk to their fellows about themselves, their early life, their training and the job that they do. This is called a "Job Talk" by some and "The Man Behind the Badge" by others.

Later in Rotary life the Rotarian is often expected to fill the speaker diary by giving a talk which is NOT connected with his work. A hobby such as stamp collecting or model trains would be a good example. My story recounts the time when Fred arrived at the meeting of his Rotary club to be reminded that he was the speaker for the evening and this was not a "Job Talk".

He had forgotten and was not prepared. He sat at the top table, beside the Chairman for the evening, and thought about a subject during the meal.

When he was announced he spoke about sex. The meeting listened to every word and asked many questions. It was a success.

When he arrived home, Mary his wife, asked "How was Rotary?"

"It was a good meeting" he said.

"What was for dinner?" she asked.

"Beef, and it was good" he answered.

"Who was the speaker?" she continued.

"I was" he replied.

"What did you speak about?"

Now he can see trouble looming!

"Sailing" he lied.

The next morning Mary was shopping in the town and visited the butcher who was also a Rotarian.

"Fred gave a wonderful talk last night." he said.

"Yes" said Mary, "but I don't understand why he chose the subject. The first time he did it he was sick and the second time his hat blew off".

WASH *in* Schools or WASH *through* Schools? – The Dilemma

Rtn. Dr B.B. Samanta

INTRODUCTION:

WASH *in* Schools and WASH *through* Schools are, many a time, interpreted as synonymous. This is probably the reason why providing safe water and improved sanitation together with hand washing facility is considered as the end of promoting WASH among school children.

This is based on the assumption that providing these facilities will lead, automatically, to their use by children and through them create demand in their facilities and ultimately in the community. But unfortunately this has not happened. There are many instances where the toilets, provided in school, are not in use or under lock and key. A similar situation emerges when it comes to hand washing facility and even water facility provided through hand pumps. A major reason for this phenomenon has been lack of demand and motivation among the school children themselves. Besides, adequate efforts have not been made to put the WASH strategy into the school system. For any behavioral change to succeed, it is essential that the motivational efforts need to be institutionalized rather than having an ad hoc approach. In the recent past several efforts have gone in promoting sanitation and hygiene in schools with disappointing outcome. Whether we talk of strategies like WASH in Schools or Wins or the Three Star Approach to WASH or Child Friendly/Happy School, the outcome has fallen short of the objectives, barring some exceptions. In the present paper, an attempt has been made on how to implement the WASH in Schools with better outcome. This is based on the author's own experience both in India and abroad.

OBJECTIVES OF WASH *THROUGH* SCHOOLS:

The major objective of **WASH through School** should be to promote better hygiene practices among students and through them, among families and ultimately among the communities on a sustainable basis, that will contribute to a significant improvement in the health and well being of people, particularly children and women and not to confine the WASH interventions within the four walls of a school. The specific objectives are:

- Adoption of a participatory approach in creating awareness among teachers and students, with greater involvement of the latter.
- Involvement of the community, through the Parents-teachers Association, for improving the school environment.
- Improvement of environmental sanitation situation in schools and the community.
- Improvement of the existing water and sanitation/hygiene facilities in schools to inculcate better hygiene practices.
- Ensuring children's rights to a cleaner and healthier environment.
- Institutionalization of the awareness and adoption strategy

***The author is the former UNICEF India Sanitation Coordinator and Head of WASH in Northern Iraq and Central Asia. Was a Member of International Civil Service**

GUIDING PRINCIPLES:

The strategy for WASH **through** Schools should be based on the following five guiding principles some of which are interlinked to one another.

Conceptualization: What to promote: It should be looked at from two main angles, one to create awareness on better hygiene practices and two to generate demand for safe water and sanitary/hygiene facilities. So far as the first part is concerned it should focus on the seven components of safe water, sanitation and hygiene. These are, i) safe handling of drinking water, ii) safe disposal of waste water, iii) safe disposal of human excreta including child excreta, iv) solid waste disposal, v) home sanitation and food hygiene, vi) personal hygiene and vii) environmental sanitation or community sanitation. In each component, a couple of key messages could be identified that have greater impact on health and nutritional status of people in general and children in particular. Of the seven components, the first six could be included as a part of the daily prayer and the seventh component, that is, the Community Sanitation, could be taken up on specific days when the students move out to the community to promote sanitation and hygiene. .

Visualization: How to promote: This will include the whole planning process and will call for creative thinking on the type of IEC materials most appropriate for disseminating the messages, the facilities to be established in the school and in the community for the adoption of hygiene practices, the channels to be used, mechanism for meeting the demand for water and sanitary facilities and so on. One suggestion is to use three or four key messages on the first six components during the daily prayer and the seventh component viz., Environmental Sanitation or Community Sanitation on special occasions that can involve the community. For example, on Monday the theme for prayer could be safe handling of drinking water and on Tuesday safe disposal of waste water and so on.

Mobilization: With whom to promote: This will include the whole range of partners with whom alliance has to be built to implement the proposed activities. At each level it will be necessary to mobilize the key partners for their involvement in achieving the key project objectives relating to what has been conceptualized and visualized. Providing the required exposure to the key partners through visits to successful project areas, training and orientation would be needed for this purpose. Formation of student peer groups/ student cabinets and their orientation should also form a part of such exposure. The concept and the way it has been visualized should be acceptable to the partners. Launching the project will be the ultimate aim of this part.

Stabilization: How to consolidate: Once the project is on ground, it will be necessary to ensure its proper implementation which could be achieved through close monitoring and follow up besides providing constant feedback on the issues that may come up from time to time, and finding a solution. Any mid-course correction need should be part of this phase.

Institutionalization: How to put the strategy into the system and create a mechanism for replication and going to scale: The institutionalization process will go along with the stabilization process. Since the project has the acceptance of all the partners involved, right from the beginning and they are involved in the project implementation and getting the feedback, it will be easy to replicate the project and go to scale. Developing Work Book on Sanitation and Hygiene, separately for each class, could be a useful intervention in this phase, along with conveying selected messages during the daily prayer. These will form a part of the institutionalization process.

From Slum Teacher to 'Evangelist of India 40'

- Forbes India.com

When someone rises from acutely humble background of a single tin-shed of slum school with merely 10 students to build an empire of corporate group of education with global schooling benchmark with thousands of bright students, hundreds of smart teachers and innumerable national and international laurels, the whole world around naturally stares. This is **Dr. Satyabrata Minaketan**, the *Founder Chairman of ODM Group of Institutions*, Patia, Bhubaneswar, who has proved that nothing is impossible with diligent and meticulous work, determination, discipline, perseverance, positive attitude and humility yet high dream. His achievements have always been point of great envy and admiration in the field of national and international school education with many feathers on his cap in the form of state, national and international level awards and rewards including the **British Council International School Accreditation** and **National Award** from none other than the **President of India**.

Now, his being conferred with 'Evangelist of India' Award by internationally acclaimed 'Forbes India' and felicitated by the great speaker and novelist '**Chetan Bhagat**' is a great pride and joy not only for ODM Group of Education, but also for whole of Odisha.

While in his village and from the time he was studying in class IX, he also fought bravely for social justice in welfare of the forbidden and downtrodden people, for child rights, casteism, atrocity against women which are clearly mentioned in his autobiography '**Manisha Gadha Karigar**'.

While doing his graduation at **RCE**, he showed his brilliance not only in education but also in cultural and philanthropic activities. Being one of the only eight students for admission

in nationally renowned **Regional College of Education** (Now '**Regional Institute of Education**') in the year 1982, he wrote his own golden career. He furthered his dream and ambition of being an educationist and philanthropist right from this national platform. Apart from his own learning, he started teaching in slums and helping the slum and hamlet dwellers in *Shikhar Chandi slum*. At the tribal villages of *Bhalunka, Chudanga* etc, he created land mark achievements striving hard to provide relief, food, shelter and agricultural support for the rehabilitation of three hundred families after the devastating phase of **Super Cyclone 1999**.

Back in the year 1989, when he started a formal school with finger count students and two teachers in a three room rented tin shed, where virtually he did the job of a Principal, a teacher, a clerk, a sweeper and a security guard all together, he had always nurtured and nourished the long cherished dream of a marvellous smart school of high qualities and values at par with global standard while still maintaining Indian values and virtues, culture and literature, vedas and scriptures. And he has done it through out. For last 31 years, he has never looked back. Starting from the tiny unit of **ODM Public School** in *BDA Colony, Bhubaneswar*, he has successfully set up huge Head quarters and **ODM Public School** at *Sishu Vihar, Patia*, **Astral Institute of Management Studies, Patia**, a **global school** at *Daruthenga* and **Institute of Human Excellence** with Eastern Asia's biggest Ayurveda and Nature Cure therapy center called '**Health Ville**' at *Bhalunka, Bhubaneswar* with very congenial, conducive, progressive, smart and advanced facilities and opportunities for students and teachers, which have been enriching and empowering the future human resource of the state and nation relentlessly with nationalistic dedication, devotion and determination with indomitable zeal and enthusiasm.

ODM Public School under his leadership has attained and achieved innumerable laurels in the terms of quality result and success in other important areas like high success rate of students in *IIT, Medical Entrance, KVPY, NTSE* and *MBA* students' standard employments. His institution is ultra modern in all aspects with

facilities of **Chembridge English Learning Department, Resonance Coaching** for career aspirants etc. Its no wonder that ODM Public School has been the first choice of the parents.

Apart from being a highly successful educationist and social worker, he is a prolific writer with publication of 17 international best selling quality books on *Life skill, Physical and Mental Health, Values and Ethics, Yoga and meditation*. He is also an eminent motivational speaker to his noble credit. As a philanthropist, he has been providing free education, lodging and board, study materials and garments to hundreds of orphans and destitute students with two crores of scholarship to meritorious students every year. He has adopted five tribal villages providing them basic means of livelihood under his social commitment projects. As *President, Rotary Club Heritage, Bhubaneswar* too, he has been rendering yeomen service to nation.

He has further higher dreams to open up new educational opportunities in every state of India contributing to nation-building through quality education, as he has said to me in our interview session.

His recent achievement of *Forbes India* '**Great Evangelist of India**' award among best forty educationists in India and being only recipient from Odisha has added another golden leaf to the History of ODM Educational Group.

Rotary International keen on partnering with Govt

Press News Service
Bhubaneswar, April 3

Rotary International has evinced interest in forging partnership with the State Government in providing community welfare projects in Orissa. The world's leading service club organisation has identified health, sanitation, education and rehabilitation of people with physical disabilities as key areas for intervention.

President-elect of Rotary International Ray Klinginsmith and RI Secretary for Asia region KR Ravindran, who are on a three-day visit to the State, met Chief Minister Nara Chandrababu Naidu today to discuss

Rotary International president-elect Ray Klinginsmith (C) at Inter City Meet

programmes as we would require involvement of the administration in undertaking the massive exercises," Klinginsmith said.

District Governor of Rotary District 3260 Sashi Varvankar said that such campaigns had been highly successful in the neighbouring Chhattisgarh and Madhya Pradesh due to the involvement of the governments. The health camps would not only conduct thorough check-ups of the people in the most remote and backward pockets but also conduct surgeries from minor to major ones.

In Mandla, Chhattisgarh, more than 2,200 surgeries were performed in a camp held earlier last

district 5400 in the USA. The hospital would start with 40 beds and OPD services. The District 3260 with assistance from its US counterpart would also adopt a village and develop it as a model community with sanitation, health, education and civic amenities.

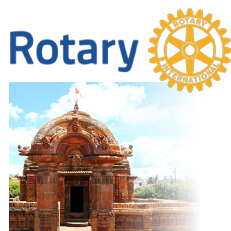

The Rotary Club of Bhubaneswar Heritage has also planned to set up a Pay and Stay home for senior citizens at the State Capital. It has also envisaged establishment of a stem cell bank here. It has started discussions with Dr Srinivasan of Jeevan Blood Bank at Chennai to get the project forward, Ashok K Tripathy said.
